Senior Services assists DuPage County residents, aged 60 and older, to maintain their independence. The Illinois Department on Aging and Northeastern Illinois Agency on Aging have selected Senior Services as the Case Coordination Unit (CCU) for DuPage County. This Unit publishes this directory, a Long Term Care Facilities booklet, and a Senior Housing Directory. All can be viewed online at www.dupageco.org/seniorsvcs. Services are provided through the following programs:
Information and Assistance: Provides information to seniors, their families and other community agencies on how to access programs, services and benefits that are available to older individuals.

Comprehensive Care Coordination: Offers a thorough in-home assessment to identify risks to a senior’s independence and provides care planning to help reduce any unmet needs.

Community Care Program (CCP): Provides homemaker, adult day services and Emergency Home Response Systems to Illinois residents who are at least 60 years of age and who meet eligibility guidelines. Services include help with basic household tasks and personal care, as well as on-going case management. The purpose of this state sponsored program is to help seniors maintain the maximum possible level of independence, and to prevent unnecessary nursing facility placement. The Community Aging Referral Program (CARP) allows individuals with higher assets to purchase these same services with a referral from Senior Services.

Case Management: Provides follow-up, monitoring and advocacy to ensure implemented plans of care continue to meet the needs and wishes of the older adult.

Home Delivered Meals: Arranges home delivered meals for homebound seniors who are unable to shop, prepare meals, or attend a Community Dining Center. A care coordinator from Senior Services will complete a comprehensive assessment to determine eligibility and review other services or resources available.

Adult Protective Services: Responds to all reported cases of abuse, neglect and financial exploitation for individuals with disabilities age 18-59 or adults age 60 and over. A trained caseworker investigates each report and works with individuals to resolve the abusive situation. People who report suspected cases of elder abuse are assured of confidentiality.

Flexible Community Services: This grant provides limited emergency funding to meet needs for products or services for which there is no alternative funding. By definition it targets our most elderly, frail and at risk seniors with unmet needs for medical care and supplies, household support, access or transportation and home modification.

Residential Repair and Renovation: Provides limited funding for minor home modifications to frail older adults, which will enhance their ability to function independently.
Money Management: A volunteer based program that assists seniors who may be having difficulty paying bills, balancing their checkbooks, negotiating with creditors, or making a budget. Community Care Program clients and vulnerable adults age 18 and over who are victims of exploitation can receive free assistance from an insured volunteer. Income and asset guidelines may apply.

Choices for Care: Provides a consultation to all nursing facility applicants to explore options for long term care which may include home and community-based services or other long term care solutions. A comprehensive assessment helps identify needs; reviews service options and cost, and assists in developing a plan of care. A prospective nursing facility applicant can then choose services that are appropriate and affordable.

Long Term Care Ombudsman Program: Ombudsmen have a twofold mission. An Ombudsman represents and advocates for residents in long term care facilities, licensed assisted living and supportive living facilities. They receive, investigate and attempt to resolve concerns and complaints regarding the care of residents as well as providing a regular presence in the licensed facilities. Ombudsmen are also charged with advocating and investigating service complaints for adults age 60 and over and disabled adults age 19-59 who receive community services through one of the Illinois Medicaid Waiver programs or who are Medicaid and Medicare beneficiaries and receive managed care services.

Pathways to Community Living: A resident of long term care, having recovered and become stable, may decide to return to the community. A transition coordinator will meet with them, determine if this is a safe and appropriate plan and assist the individual in locating housing and securing other necessary items. Eligibility criteria must be met.

Outreach: Community visits to locate seniors who may be isolated due to transportation, housing, or language barriers. Efforts are made to educate and engage these individuals and their caregivers about resources and services they may need.

Family Caregiver Support Program: A federally funded program that provides information and assistance, respite services, emergency support, and legal assistance to caregivers of older persons and grandparents raising grandchildren. Services may include respite in the form of home health care, adult day services, or nursing home placement on a short-term basis. Emergency gap-filling services are also available in the form of respite care, home modification, transportation, assistive devices, and financial assistance.
- **Senior Transportation:** Provides limited funding for transportation to low income DuPage County seniors who are not eligible for other available transportation services. Priority is given for travel to medical appointments, nutrition sites, grocery shopping, and banking.

**CLIENT SERVICES**
(630) 407-6500
(630) 407-6502 (TDD)
1-800-942-9412

**Client Services** provides social service assistance to DuPage County residents aged 59 and under. A Customer Service Assistant, who is trained to answer general questions regarding services, provides the first level of service. Finally, clients with multiple or more complex needs are referred to a Client Services’ Case Manager for further assistance.

- **Information & Referral (I&R):** DuPage County’s central clearinghouse for social service information, providing individuals and agencies with resources available to persons aged 59 and under. Professionally trained staff helps to identify a client’s need through a comprehensive assessment, and links them to the appropriate services. I&R Specialists access and utilize a vast information system, which includes data on over 1,400 social service agencies, churches, government bodies, civic groups, legal and medical organizations. There are no eligibility requirements. This program serves anyone who calls and requests information.

- **Medical Assistance Program:** Provides limited financial assistance for medical fees, prescriptions, and supplies. Services include assistance with prescriptions; medical fees such as x-rays; lab work; doctor visits; dental work; medical supplies such as glucometers, walkers, crutches, eyeglasses, and syringes. - **Case Management:** Based upon a comprehensive assessment of the client’s needs, short-term case management may be provided for up to six months. The Case Manager assists the client in the process of accessing services and programs to meet their needs. Further case management activities may include, but are not limited to, goal setting and the development of an action plan, follow-up, monitoring, and evaluation. Head of household must be 59 years of age or younger. Client signs an agreement to participate and work toward goals.
- **Homelessness Prevention:** Short-term assistance may be available to eligible households experiencing an economic crisis to avoid eviction and those who are currently homeless to become stably housed. Depending on available funding, services offered include rent, mortgage, or security deposit assistance coupled with supportive services to help maintain housing. Eligibility criteria vary by funding source. Applicants are required to document: current or intended residence within DuPage County; danger of eviction or current homelessness; ability to pay future rent and expenses through current income of development of a personal recovery plan. Additional eligibility criteria may apply. Homeless assistance from any provider may make a household ineligible for further assistance.

- **Case Management:** Short-term case management is available to assist DuPage County residents in need access basic needs and gain stability. Upon completion of a comprehensive assessment of strengths and needs, a case manager will assist the client to develop an individualized service plan to set goals and secure services necessary to meet basic needs. Case managers and clients meet on a planned basis to monitor progress toward goals and link with needed services. The client must be younger than age 60 and must sign an agreement to participate and work toward goals.

- **Family Self-Sufficiency (FSS):** This program helps families to develop career plans, reach family goals, and obtain services with the goal of achieving economic self-sufficiency. Services include comprehensive case management and supportive services for up to five years. Eligible households will be low-income DuPage County households with children. Adult day service provides a protective and stimulating environment for older adults who are in need of daytime supervision. Attendees profit from the array of services offered, while their caregivers receive respite from the pressures and demands of caring for an elderly relative or friend. Benefits include a structured environment, companionship, nutritious meals and a variety of activities under the supervision of professional staff. Personal care, physical and occupational therapy and health monitoring are available at some locations (referred to as medical models).

Adult day service is a cost-effective alternative to in-home services or nursing facility placement. Participation is a welcome change of pace for individuals who are moderately handicapped, physically frail, mildly confused or socially isolated. Daily schedules, fees and services vary. Financial assistance may be available through the Illinois Department on Aging’s Community Care Program, or the Veterans’ Administration.

Good mental health is important in maintaining a high quality, independent lifestyle. At times, however, the stresses of physical and emotional changes, illness, providing care or suffering loss can bring about feelings of anxiety, grief and depression. These feelings can have a negative impact upon one’s sense of well-being. Services that can assist older adults and their families in coping with the changes that often accompany the aging process may be obtained through psychiatrists, psychotherapists and other mental health professionals.

Support groups educate and inform, as well as provide an opportunity to share common experience and emotional support with others who face similar issues. These groups frequently focus on special needs, including Alzheimer’s disease, arthritis, cancer, caregiving, depression and grief. Generally, area hospitals, nursing facilities, agencies that provide counseling, and health related organizations can direct you to a support group that will meet your needs. If you have any questions, or need additional information, call DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.

ADULT PROTECTIVE SERVICES

Many older adults and individuals with disabilities age 18-59 are at risk of abuse, neglect and financial exploitation. More than half of the abusers are their primary caregivers. The most common forms of abuse are Emotional (verbal assaults, threats, harassment or intimidation), Financial Exploitation, Neglect (a caregiver’s failure to provide life’s basis necessities) and Physical Abuse (infliction of physical pain or injury). DuPage County is designated by the Illinois Department on Aging to respond to all reports of suspected abuse for these populations. Adult Protective Service Workers advocate for victims and initiate agreed upon interventions to resolve the abusive situation. Interventions may include home health care, nutrition services, financial or legal assistance, court advocacy, Adult Day Services, housing assistance, respite for the caregiver, counseling for the victim and/or abuser, emergency assistance, or when needed, guardianship proceedings and/or nursing facility placement.

Competent adults have the right to refuse assistance and victims sometimes thwart attempts to resolve a bad situation.

Some professionals are mandated reporters, as identified by the Adult Protective Services Act. These professionals are required to report the abuse or neglect of any older adult or adult with disabilities who are unable to report for themselves due to any type of dysfunction. For more information on the Adult Protective Services Act, go to www.state.il.us/aging and select Adult Protective Services.

Report abuse, neglect & exploitation of those 18 years to 59 with a disability or any person aged 60 and older.

Many older adults continue to work past retirement. Currently, the average life expectancy for those who reach age 65 in the United States is 84. If you consider taking early retirement as allowed by Social Security at age 62, will you have the financial resources to support yourself for 20 or more years?

Why keep working?

- Almost half of homeowners over age 62 have a mortgage
- Many have not successfully saved enough to maintain the same lifestyle
- Waiting to take Social Security until age 70 can boost those earnings significantly
- Some retirees suffer depression as a result of the lack of routine and purpose once they stop working
- Work prevents isolation and can provide socialization and mental stimulation
- Working can keep you mentally and physically healthy
- Once a person begins collecting Social Security and other retirement income, they may have the option to begin a new career based on interest rather than income

Volunteering can also offer the opportunity to remain active and engaged, and allows retirees to utilize and contribute the skills they have gained over a lifetime. Churches, schools, hospitals, nursing facilities and other service agencies often rely on volunteers who are willing to give their time and share their expertise.

The following resources assist older adults who wish to obtain meaningful employment, make a career change or find an enriching volunteer opportunity.

FEDERAL BENEFITS

Social Security is the largest financial assistance program serving those who are retired, disabled or surviving spouses and children. This program benefits almost every American family through the following plans:

♦ Retirement Benefits – Most individuals who work pay taxes to fund Social Security benefits. At Full Retirement Age (FRA) Social Security pays, on average, about 40% of the earner’s wage. In 2003 the age at which an individual could receive full benefits changed. For example, those born before 1938 can collect at age 65. Those born later are on a graduated scale. People born in 1960 or later will not reach FRA until age 67. A reduced benefit can be available at age 62. To maximize benefits, waiting until age 70 will increase the benefit by 7% for each year beyond FRA. Social Security was not intended to be the sole source of income for retirees so it is important to prepare for retirement with other pensions, savings and investments. For detailed information or to view your own benefit information long onto www.ssa.gov.

♦ Disability Benefits (SSDI) – Those who cannot work due to a physical or mental condition that is expected to last at least one year or result in death, before age 65, may be eligible to receive Social Security Disability Income (SSDI). Social Security eligibility guidelines differ from other agencies or private plans and the application process can be lengthy. It is important to apply as soon as possible at www.ssa.gov/applyfordisability.

♦ Survivors Insurance – Upon the death of a spouse or parent, an individual may be eligible to collect Social Security income based on the work record of the deceased. Spouses who can be considered are a widow or widower age 60 or older or 50 and older with a disability, or caring for a child who is under age 16 or disabled. To receive their own benefits, eligible children include those under age 18 or between 18 and 19 but in elementary or
secondary school full time or those who are severely disabled, age 18 or older and the disability began before age 22.

- **Supplemental Security Income (SSI)** - Provides a minimum monthly income for those who are aged, blind or disabled who may not qualify for regular Social Security income. An individual who has never worked may be eligible to collect these benefits if they have very limited income and assets.

Social Security provides a very helpful website, [www.ssa.gov](http://www.ssa.gov). Here you can log on and create your own account and browse your projected earnings or file applications for benefits.

**Medicare**, and other benefits of the **Affordable Care Act (ACA)**, provide federal insurance coverage or subsidies for individuals of all ages depending on eligibility. See the section titled [INSURANCE](#) for further details of these programs.

Eldercare Locator
1-800-677-1116
www.eldercare.gov

The Eldercare Locator gives you nationwide access to a network of organizations serving older individuals at the state and local level. They will provide you with the telephone numbers(s) of the appropriate state or local agency for a variety of services including adult day care, Adult Protective Services, home delivered meals, homemaker services, transportation and more.
The desire to remain in familiar surroundings may increase with age. However, for some needs change that require adaptation. Some older adults will make accommodations at home, others might choose to move in with relatives or move to an apartment or condominium that does not require the maintenance or financial burden of home ownership. Still others will choose housing specifically designed for older adults. Options for those who choose to move are diverse and plentiful.

**RESIDENTIAL OPTIONS**

Below are brief descriptions of a variety of housing alternatives. Compare each option, taking into consideration your financial situation, location (family, friends, and familiar surroundings are important), your health (and that of your spouse) and your long-term needs. Plan ahead! For a listing of the various housing options, contact DuPage County Senior Services at (630) 407-6500 or 1-800-942-9412, or view them online at www.dupageco.org/seniorsvcs.

**Independent Living Communities** - Individual apartments or condominiums designed especially for older adults who are able to care for themselves. Some supportive services may be available including meals, housekeeping, laundry, personal care, transportation and recreational activities.

**Federally Subsidized Housing** - Also considered an independent living community, but subsidized by the government. Eligible residents pay approximately 30% of their income for rent. Supportive services may be available at some locations. See page 73 for more specific details.

**Assisted Living Facilities** - Individuals who need assistance with activities of daily living may select this option. These facilities are based on a social model where individuals do not require on-going skilled nursing care. The Illinois Department of Public Health is the licensing and monitoring agency for Assisted Living Facilities.

**Continuing Care Retirement Communities (CCRC)** - Provide a continuum of care for older adults including independent living, supportive services and nursing care, if that help becomes necessary. A “life care community” usually requires a substantial entrance fee, which may or may not be partially or fully refundable, and monthly maintenance fees. CCRC’S guarantee that you will have a home and the care you need for as long as you live.
Supportive Living Facilities - These affordable assisted living models are administered by the Illinois Department of Human Services. They offer housing with services to qualified persons. The program provides apartment style living with personal care provided by professional licensed staff. Pre-admission screening is required. A care plan is developed that can include the following:

- personal care
- laundry
- housekeeping
- maintenance
- meals
- temporary nursing care
- social/recreational programming
- health promotion and exercise programs
- medication oversight
- 24-hour response/security

The Housing Choice Voucher (HCV) (formerly called Section 8) is accepted. These homes are located in Downers Grove, Lombard and Naperville.
Long Term Care Facilities - Nursing facilities, provide sheltered, intermediate or skilled medical care for those needing prolonged care. While Medicare will pay for a short-term stay for rehabilitation, it does not cover long term care.

To receive a copy of any of these, please call DuPage County Senior Services, 630) 407-6500 or 1-800-942-9412. They are also available online at www.dupageco.org/seniorsvcs.

SUBSIDIZED HOUSING

Subsidized housing is provided in two ways, through a project-based subsidy or through a voucher program. These are both federally funded programs that assist low income people afford decent rental housing. The amount you will pay for rent in both cases is calculated at approximately 30% of your gross income with some consideration for medical expenses as well.

The Housing Choice Voucher (HCV) program (formerly called Section 8) is offered to individuals through the DuPage Housing Authority. The application and enrollment procedures are lengthy. Once a voucher is obtained, however, it is transferable from one approved location to another and is renewable annually. Most times the waiting list for these vouchers is so long that the list is temporarily closed. For more information, please call the DuPage Housing Authority at (630) 690-3555.

Project Based Voucher (PBV) subsidy program units and the Rental Housing Support Program (RHSP) formally called (Section 236) are available through the management offices of specific complexes. You must apply directly to the apartment building that you are interested in. The waiting list for these can be lengthy as well but we encourage you to apply even if you don’t think you can wait that long. The subsidy remains with the building and cannot be transferred. For a list of subsidized apartment complexes, call DuPage County Senior Services at (630) 407-6500 or visit www.dupageco.org/seniorsvcs.
LONG TERM CARE

Placement in a Long Term Care Facility may be the only option available when the needs of an older adult can no longer be met by family, friends or community services. Decisions regarding placement should be made with care to ensure the best interests of the prospective resident.

Selecting an appropriate facility requires thorough research. Whenever possible, the prospective resident should be involved in the decision making process. Visit several facilities informally to identify those that have characteristics you consider important. Annual surveys of individual facilities can be viewed on the Illinois Department of Public Health Website at www.idph.state.il.us. For detailed information about the performance of every Medicare and Medicaid certified long term care facility, go to www.medicare.gov/NHCompare. Then schedule an appointment with the administrator or the director of admissions at the facilities being considered.

Following placement, family and friends should visit frequently and remain involved in the resident’s care. If concerns and/or complaints arise, a referral can be made to the Illinois Department of Public Health (see page 75) and/or the Long Term Care Ombudsman Program (page 75). For additional information, or assistance, call DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.

Choices for Care - All long term care facility applicants, regardless of payment method, must have a pre-admission screening completed before they can be admitted. (Public Act 89-0021). This is a comprehensive assessment by a professional case manager to determine the appropriateness of placement, discuss eligibility for Medicaid and provide information on alternative home and community-based services. The assessment measures a person’s functional ability, as well as current support from family, friends and other sources. Screenings are completed in the hospital prior to discharge or in the home of a prospective client. All long-term care facility applicants retain the right to choose long term care facility admission even if it is not recommended. To schedule a screening, call DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.

Long Term Care Facility Residents Have A Right:

- For safety and good care.
- To participate in care plan development.
- For privacy, respect and dignity.
- To make financial decisions.
- To be free from restraint and abuse.
- To vote and for freedom of speech.

During that stay, housing may have been lost as well as all the necessary items required for caring for oneself at home. Pathways to Community Living is available to help these individuals successfully re-enter the community. A transition coordinator will meet with the individual, determine if this is a safe and appropriate plan and assist the individual in locating housing and securing furniture and other necessary items. To be eligible for this program the individual must have been in the facility for at least 90 days (excluding Medicare paid days), on Medicaid for at least one day and be age 60 or older. DECIDING WHAT FITS

When circumstances demand change, the decision of ‘what to do’ is a difficult one. Identifying appropriate options may require the assistance of a professional. Care Coordinators from DuPage County Senior Services can provide a “Choices for Care Screening” to help identify housing and care options. A full assessment is free of charge and can help seniors and their caregivers make informed decisions. These assessments can be completed at home or in a nursing home or hospital. Call DuPage County Senior Services to request this Choices for Care Screening at (630) 407-6500.

The following private companies also offer transition assistance. They will assess your needs considering the appropriate level of care desired, geographical preference and budget. They will identify specific supports or housing options tailored specifically to you, provide information and referrals, and some will help facilitate those services or your move.

Determines initial and on-going eligibility for state and federally funded public assistance programs including food stamps, Medicaid, Cash Assistance, and TANF. Most immigrants entering the United States after 8/22/96 are unable to receive certain types of public assistance for their first five years in the U.S. There are exemptions to these restrictions for certain categories of immigrants including asylees, refugees, victims of trafficking, and immigrant victims of domestic violence. Immigrants who are not eligible for other public assistance (ineligible non-citizens) may still qualify for emergency medical coverage, pregnancy related medical coverage and medical coverage for children under the age 19, regardless of how long they have lived in the U.S. To apply for public assistance or to obtain further information regarding eligibility, please contact the Illinois Department of Human Services directly.
Health insurance, especially Medicare with all its “Parts”, can often be difficult to understand. The enactment of the Affordable Care Act adds more complexity. This section provides only a brief overview of Medicare, Medicaid, the Marketplace and other insurance that can be purchased for health and long term care needs.

**MEDICARE**

Medicare is a federal health insurance program that pays many hospital, medical and pharmaceutical expenses for people who are 65 and older, people with kidney failure and some people with disabilities under age 65.

- **Part A** helps pay for care in a hospital, a skilled nursing facility, and for home health and hospice care. Part A costs nothing for most Medicare participants.
- **Part B** helps pay doctor bills, outpatient hospital care, mechanical equipment and supplies and various other medical services. Everyone must pay a monthly premium to receive Part B. Some individuals are enrolled automatically when they reach age 65. Other individuals should contact the Social Security Administration about enrollment periods. Delaying your enrollment may cause a delay in Part B Coverage and higher future premiums. (See “Medicare with Medicaid” for assistance with premium and co-pays page 88).
- **Part C** (Medicare Advantage) provides several alternatives to traditional fee-for-service care. These include Managed Care plans (HMO), Private Fee-For-Service plans (PFFS), Preferred Provider Organizations (PPO), Medicare Savings Accounts (MSA) and Special Needs Plans (SNP). Costs for care can vary widely and choice of physicians and hospitals may be limited.
- **Part D** provides assistance with prescription drug costs. To get Medicare prescription drug coverage you must choose and join a Medicare drug plan. (See page 108) Delaying your enrollment may cause higher future premiums.

If you have any questions about your eligibility or the information above, or to apply for Medicare, visit your local Social Security Administration office, (page 33), call the toll-free number: **1-800-772-1213**, or go online to [www.medicare.gov](http://www.medicare.gov).

SHIP, the Senior Health Insurance Program trains volunteers who provide education, and counsel individuals with Medicare and other health insurance questions. See page 90 for more information.
Medicare Supplemental Policies, or “Medigap”, is private health insurance designed to fill the gaps that Original Medicare does not cover. Medigap policies help pay co-payments, co-insurance fees and deductibles. There are 10 basic policies that are standardized by Medicare, but additional benefits may be included for a higher premium. These policies are only available with the Original Medicare plan. **Never buy more than one policy.** It is against the law for an insurance agent to sell you a second Medicare Supplemental Policy if they know you already have one.

**MEDICAID**

Illinois Department of Human Services – Family Community Resource Center

Medicaid, the nation’s health care program for the low-income of all ages, is administered by state governments and partially funded by the federal government under the Social Security Act. Medicaid covers physician services, prescriptions and hospital costs for the Indigent. Under the benefits provided by the Affordable Care Act eligibility in Illinois has been expanded.

**Medicaid for Long Term Care** may also pay for care in a nursing home. Individuals must meet financial eligibility requirements as well as demonstrate impairment in performing activities of daily living (for details see Choices for Care page 74).

When one spouse needs nursing home care or in-home services and the other spouse does not, the **Prevention of Spousal Impoverishment** may apply. This benefit allows specified assets and income to be transferred to the “community spouse” while Medicaid pays for care of the spouse receiving help. To explore eligibility and benefits or submit an online application, visit abe.illinois.gov, or call the Illinois Department of Human Services at (630) 530-1120.

**MEDICARE WITH MEDICAID**

Medicaid offers three, Medicare Savings Programs (MSP), designed to help Medicare beneficiaries who have very low income and few assets

- **Qualified Medicare Beneficiary (QMB)** pays Medicare premiums, deductibles and co-insurance.
- **Specified Low-Income Medicare Beneficiary (SLMB) and Qualifying Individuals (QI)** pay only your Medicare Part B premium. The monthly income limits are slightly higher for SLMB and QI than for QMB. Individuals who are determined eligible for any of these programs will also qualify for Extra Help with Medicare Part D prescription drug coverage. See page 108 for more information about Extra Help.
MMAI – Medicare-Medicaid Alignment Initiative

This demonstration project and joint effort between Illinois and the federal Centers for Medicare and Medicaid (CMS) was implemented in suburban Cook County and five collar counties in May, 2011. The goal of this alignment is to provide a medical home for patients who have both Medicare and Medicaid (referred to as “dual eligible”), prevent duplication of services, provide better coordination and subsequently reduce medical costs for the state. Patients can choose between multiple managed care organizations that will provide integrated care that is patient centered, focuses on improved health outcomes via evidence based treatments and enhances patient access and safety. Dual eligible patients have the option to remain with regular Medicare and Medicaid if they so choose. For questions, visit www.enrollhfs.illinois.gov, or call the enrollment specialists at 1-877-912-8880, TTY 1-866-565-8576.

Senior Medicare Patrol is a federal and state partnership effort to educate the public and reduce Medicare and Medicaid fraud and abuse. Public participation is crucial in uncovering fraud. Trained volunteers give presentations to Medicare and Medicaid recipients on how to protect against, detect and report fraud. The U.S. Department of Health and Human Services has established a confidential tip line, 1-800-HHS-TIPS (1-800-447-8477), to call if you believe healthcare fraud has been committed. The number can be reached Monday through Friday 7:00 A.M. to 4:30 P.M. (Central time). Speakers are available to talk with groups and organizations. For further information and assistance, please call Age Options, at 1-800-699-9043.

AFFORDABLE CARE ACT (ACA)

Commonly referred to as “Obamacare”, this legislation seeks to ensure access to health insurance for all citizens and legal residents. A “Health Insurance Marketplace” opened in October 2013 to provide coverage beginning in January 2014. This law requires most individuals to maintain health coverage through an employer or from an insurance company through the Marketplace. For those with very limited income, the law expanded Medicaid eligibility in Illinois. Individuals with low income can purchase private insurance and be eligible for a subsidy to help pay the premiums and copays. Also, the law requires certain employers to provide a minimum level of coverage for their employees. For a comprehensive look at what is available to you or to locate a professional who can help you with this search, visit www.getcoveredillinois.gov.

The Illinois General Assembly created the Comprehensive Health Insurance Plan (CHIP) to provide health insurance coverage for eligible Illinois residents who have been denied individual major medical coverage because of their health condition and to serve as an acceptable alternative mechanism for complying with the individual portability requirements of the federal Health Insurance Portability and Accountability Act (HIPAA). Premiums, which are costly, are established by law. This coverage does not constitute minimal essential coverage under the Affordable Care Act.

For a referral to a volunteer near you, call DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.

The Senior Health Insurance Program (SHIP) recommends that you shop around, evaluate carefully local library how to check the ratings of the insurance company you are considering. It is also advisable to call the State of Illinois Department of Insurance at (877) 527-9431 toll-free to verify that the company you are considering is permitted to do business in Illinois and to determine if there have been an extraordinary number of consumer complaints against the company.

Veterans Care is comprehensive and affordable health care coverage for income eligible Illinois veterans under 65 years of age who have been uninsured for 6 months and who do not qualify for health care through the U.S. Department of Veterans Affairs. For more information check out their website at www.illinoisveteranscare.com, or call 1-877-483-8779, 1-877-204-1012 (TTY).
**Long Term Care Insurance (LTC)** may cover care in a nursing facility, as well as care in the community. Contrary to what many individuals think, Medicare will only pay limited benefits for a skilled nursing facility and in-home care. The cost of nursing facilities varies widely throughout the state. In DuPage County, a 12-month stay may cost more than $70,000. If you have limited assets and are likely to become eligible for Medicaid after a short nursing facility stay, you probably don’t need long-term care insurance. If your assets are considerable, in addition to your home, you may want to consider this coverage to secure these assets and to protect your retirement income. Make sure that coverage is not duplicated by Medicare, Medigap or any type of insurance you already have.

When seeking long term care insurance, SHIP advises that you not submit to a high pressure sales agent. Information must be provided in writing and you should read it all, including the fine print. Check and compare several insurance companies and policies.
A number of organizations and agencies have programs that assist with legal questions pertaining to wills and estate matters, advance directives, Public Aid eligibility, Social Security benefits, guardianship and advocacy, human rights and consumer protection. The information on the following pages is a guide to some of those resources and organizations.

DuPage County Senior Services cannot give legal advice, but is able to direct seniors to helpful resources.

**MAKING YOUR WISHES KNOWN: AN EXPLANATION OF TERMS**

**Wills:** Allow an individual to direct the dispersal of his or her estate upon death. If you do not have a will, the government follows legal statute as to how to distribute the estate.

**Living Trusts:** A form of estate planning that allows individuals control of their assets during their lifetime and directs what happens to their assets after their death. The document is created and operated by an individual during his or her lifetime. This individual can choose to be the initial trustee and remain in control as long as he or she wishes - or until death, when the person named as successor trustee takes over. The living trust is often used to avoid probate, save on estate and inheritance taxes, provide for property management in the event of disability, and keep estate information private. A living trust can be revocable (amended or canceled) or irrevocable (cannot be amended or canceled). Fees for preparing living trusts are usually considerably more than the cost of a will. Consult an attorney well trained in estate planning to help determine the legal documents that will best suit your needs.

Wills and trusts should be reviewed periodically to reflect changes, i.e., divorce, marriage, increase or decrease in assets, or change of beneficiaries.

**Durable Power of Attorney for Property:** A written document that allows an individual to designate another person to manage finances and/or property. For example, authorize real estate and stock transactions; handle banking, tax or other types of business matters; represent in court; or address other types of legal claims.
An attorney should be consulted to prepare a Power of Attorney for Property. The Power of Attorney’s authority does not supercede or diminish the individuals’ authority.

**Advance Directives:** Allow an individual to decide what type of medical care and procedures are acceptable if he/she becomes incapacitated. Legal tools used for this purpose are a Durable Power of Attorney for Health Care, and a Living Will. In the absence of advance directives, someone else will be appointed to make health care decisions on your behalf, generally the closest family relative.

- **Durable Power of Attorney for Health Care:** Designates another person to make health care decisions on your behalf in the event of a physical or mental disability. May be used instead of, or together with, a Living Will.

- **Living Will:** This form expresses an individual’s wishes about having death-delaying procedures withheld or withdrawn due to a terminal illness or an incurable disease or injury. The person appointed should be someone who fully understands your intent and will diligently follow your directives.

The law does not require the use of an attorney to draft these documents. However, for proper guidance and to protect your own interests, consultation with an attorney is recommended.

**GUARDIANSHIP**

Adult guardianship is a judicial process whereby a court determines that an individual lacks the capacity to make or communicate decisions and gives that authority to another individual or agency. A petition is filed with the court, generally by an attorney, along with a physician report stating the reasons why guardianship is needed. The court appoints a Guardian ad Litem who visits the alleged disabled person, explains their rights to them and reports to the court whether guardianship is recommended. There are three types of guardianship. Guardian of the person makes decisions of a personal nature, i.e.: housing, medical treatment, etc. A guardian of the estate will make financial decisions. Guardianship for both person and estate is the third option. All guardianships are further defined as either plenary, meaning able to make any decision or limited, being restricted to a certain type of activity or decision.

Any adult age 18 or older that is of sound mind, has not been convicted of a serious crime and proves to be acceptable to the court can serve as guardian. An agency or institution not providing residential care to the individual or having any other vested interest could also serve as guardian. Where no appropriate guardian, personally
known to the individual, can be identified, the Office of State Guardian or the Office of Public Guardian may be appointed.

MEDICARE PART D

Medicare Part D, is an insurance program for prescription drug coverage, available to everyone with Medicare regardless of age, income or resources. Part D policies are offered by private insurance companies, and cover both generic and brand name drugs. Like other insurance, you pay a monthly premium, a yearly deductible not to exceed $320 in 2015 and part of the cost of your prescriptions. Those costs vary from plan to plan and may be affected by other assistance you qualify for.

Enrollment is voluntary but should be seriously considered. There is a 1% per month penalty added to the premium if enrollment is delayed beyond initial eligibility. Those individuals with coverage through other resources such as the VA or private pension plans are exempt from this penalty while they continue to carry acceptable coverage. Though many older adults may not be taking any regular prescription medication upon enrolling in Medicare that is likely to change with age.

Part D Plans change each year and vary from state to state. Plans may have different formularies or lists of drugs that they include in their plan and different costs associated with them. Annual Coordinated Election Periods are scheduled in late fall each year allowing enrollees to change plans. Individuals should review their coverage regularly to insure they have the best plan for their personal needs. For help with this, visit www.medicare.gov or call DuPage County Senior Services, (630) 407-6500 or 1-800-942-9412.

Those individuals with limited income and assets may apply for Extra Help. To qualify for Extra Help from the Social Security Administration in 2015, assets are limited to $13,640 for an individual and $27,250 for a married couple living together. The annual income limits are $17,655 and $23,895 respectively. Extra Help may eliminate monthly premiums or deductibles and reduce co-payments. For more information or to apply on line, go to www.socialsecurity.gov.

PROPERTY TAX EXEMPTIONS

Disabled Persons Homestead Exemption – Applicants must be disabled or become disabled during the assessment year (i.e., cannot participate in any “substantial gainful activity by reason of a medically determined physical or mental impairment” which will result in the person’s death or that will last for at least 12 continuous months), must own or have a legal or equitable interest in the property, or a leasehold interest of a single-family residence, must occupy the property as their principal residence on January 1 of the assessment year, and is liable for the payment of the property taxes. This Homestead Exemption reduces the net taxable assessed value by a maximum of $2,000. The actual tax savings is dependent on the applicable tax rate.

Mobile Home Exemption - Seniors, 65 and older, who own and live in mobile homes, which do not have permanent foundations, are eligible for a 20 percent reduction in mobile home privilege tax. For more information, call the DuPage County Clerk’s office, (630) 407-5540.
Senior Citizen Assessment Freeze Homestead Exemption - This exemption would freeze the equalized assessed value (EAV) of an individual’s property at the base year amount and prevent any increase due to inflation. The base year is the year prior to the year you first qualify and apply for the exemption. The assessment freeze exemption does not freeze the amount of your property tax bill, which will still increase if the tax rate increases. Your assessment and tax bill may also increase if you add improvements to your home. In subsequent years, if the new assessed value is lower than the established base assessment, the new lower value becomes the base. To be eligible you must be 65 years of age or older and have a total household income of no more than $55,000 in the previous calendar year. You must own and occupy the home before January 1st of the application year and prior base year. If you are eligible for this exemption you must apply by October 1 with the DuPage County Supervisor of Assessments, (630) 407-5858.

Senior Citizen Homestead Exemption - Available for those age 65 and older. Allows annual savings on property tax bills, regardless of income or the original amount of real estate taxes. A maximum $5,000 exemption is applied to the equalized value of the elderly person’s home. File for this exemption when either the husband or wife, as shown on the deed, reaches the age of 65. Annual renewal cards are sent to qualified taxpayers and must be returned to the Supervisor of Assessments.

Veterans may be eligible for one of two exemptions:

- **Disabled Veterans’ Standard Exemption** – The applicant must be an Illinois resident who is a veteran with at least a 50% service-related disability as certified by U.S. Department of Veterans Affairs and; the home must be owner-occupied by the disabled veteran or the surviving unmarried spouse of the disabled veteran as of January 1st of eligibility year, and the property value must not be more than $750,000. **Those claiming exemption under the Disabled Persons Homestead Exemption or the Disabled Veterans’ Adaptive Housing Exemption are not eligible.** This benefit provides an annual exemption of: $5,000 off the total assessed value if disability is 70% or more or $2,500 if disability is 50% to 69%.

- **Disabled Veterans’ Exemption (For Adaptive Housing)** – The applicant must be a disabled Veteran (or surviving un-remarried spouse) who has served in the Armed Forces of the United States and who has acquired, in connection with that service, a disability of such a nature that the Federal Government has authorized payment for purchase or construction of specially adapted housing as set forth in the U.S. Code Title 38, Chapter 21. The Disabled Veterans’ Exemption provides an annual deduction of up to $70,000 off of the taxable assessed valuation for the home. Eligibility is determined by the Department of Veterans Affairs.
Information regarding the above exemptions can be obtained from your Township Assessor’s office, or the DuPage County Supervisor of Assessments, (630) 407-5858.

OTHER DU PAGE COUNTY PROPERTY TAX PROGRAMS

Taxes would be repaid once the home is sold or when the taxpayer dies, with interest at 6% per annum. **Applicants must apply by March 1** of each year for the taxes due that year. For additional information, or to apply, call the Office of the DuPage County Collector, (630) 407-5900.

For specific information about services available in your local community, see the grid starting on page 132, or contact DuPage County Senior Services at (630) 407-6500, 1-800-942-9412, or your local city, village hall, or township office.

**RIDE DU PAGE**

Many townships, cities, and villages operate or subsidize transportation services for older adults and people with disabilities. Ride DuPage is a program that combines many of those services into one, easy to use system. Ride DuPage began coordinating transportation services for a few sponsors in July 2004. More have been added, with more to come. Transportation is provided via taxi or bus, curb-to-curb. Once you are registered for Ride DuPage through one of the sponsoring agencies, you can call the Ride DuPage call center directly to set up rides at 1-800-713-7445. Each sponsor determines eligibility for their program and establishes the cost to their rider.

The DuPage County Paratransit Program is a Ride DuPage sponsor and offers transportation to county residents who meet low-income guidelines. Travel is provided to medical appointments within DuPage County, DuPage County Health Department locations, and DuPage County Community Services at 421 N. County Farm Road, Wheaton, IL. Proof of eligibility must be provided and applicants must pre-register. There is a charge of $4 each way to the 421 and 111 N. County Farm Road Buildings, all other destinations are $1.50 for the first 6 miles, then $1.50 each additional mile. To register, seniors should call DuPage County Senior Services at (630) 407-6500 or 1-800-942-9412.

Senior Transportation Grant, another Ride DuPage sponsor, is funded through the Older Americans Act and is administered by DuPage County Senior Services. Eligibility is determined on an individual basis with priority given to low income frail elderly who do not qualify for or cannot afford other transportation programs. Rides can be provided to medical appointments, nutrition sites, adult day centers or other locations with approval. For more information, please call DuPage County Senior Services at (630) 407-6500.

For many Illinois households, energy costs place a severe and continuing stress on the family budget. In some instances, the household is forced to make painful decisions regarding which bills to pay and which necessities to survive without. The Low Income Home Energy Assistance Program (LIHEAP) assists eligible households by offsetting the rising cost of home energy through direct financial assistance, energy counseling, education and outreach. An overdue bill, or disconnect notice is not required to receive this assistance.

DuPage County residents may call (630) 407-6500 to make an appointment with DuPage County Community Services, 421 N. County Farm Road in Wheaton.
